EDUCATION

Carnegie Mellon University, Pittsburgh, PA

B.S. Cognitive Science (Artificial Intelligence Concentration)

Additional Major: **Human-Computer Interaction**

GPA: 4.0 / 4.0 | **Expected Graduation:** May 2028

Relevant Coursework: Cognitive Psychology, Fundamentals of Programming (15-112)

RELEVANT EXPERIENCE

Project Lead (Honey Haven Game) | CMU Game Creation Society January 2026 – Present

- Co-leading development of a mystery/psychological horror visual novel game, organizing overall functions to ensure timely delivery
- Directly manage design (characters & UI/UX) and storywriting teams, translating creative concepts into actionable development tasks

Production & Marketing Manager | Lightyear Studio September 2021 – Present

- Represent customer needs in executive-level decisions regarding video and photography deliverables
- Redesigned digital asset management system, improving internal organization and production efficiency
- Inform content decisions using audience engagement metrics and design strategies to increase branch reach

Legal Intern | Delaware County District Attorney's Office July 2024 – August 2024

- Enhanced the usability of the Misdemeanor Diversion Program (DCMD) cataloging system by refining its structure to streamline access to information
 - Supported Assistant District Attorneys by synthesizing case information, timelines, and documentation
-

PROJECTS

Executive Function Alarm App | Python, HCI-Focused (Course 15-112)

- Designed an alarm application that requires users to complete executive functioning tasks to deactivate
- Applied cognitive psychology principles to encourage sustained user engagement and habit formation

Sir Jester (Hackathon Game) | Python, UI/UX Design | [\[Playable Demo\]](#)

- Collaborated with a team to create a free mobile web browser game in under 24 hours (TartanHacks)
 - Led UI/UX design of the project, ensuring a seamless user experience within a 15kb memory constraint
-
